PROFESSIONAL SUMMARY

AI-augmented Full Stack Developer pursuing B.Tech in CSE (2024–2028), experienced in building intelligent, scalable web applications using React.js, Next.js, Node.js, and MongoDB. Skilled in leveraging AI tools, multi-model integrations, and APIs to accelerate development and deliver production-ready solutions. Oracle Generative AI Certified with internship experience across AI development, Python backend, and frontend engineering.

EDUCATION

Global Institute of Engineering and Technology <i>B.Tech in Computer Science Engineering</i>	2024 – 2028 Hyderabad, India
Narayana Junior College <i>Intermediate Education (MPC) – Board of Intermediate Education, Telangana</i>	2022 – 2024 Hyderabad, India

EXPERIENCE

AI Developer Intern <i>Optern</i>	Jun 2026 – Present Remote
- Designing and developing a multi-model AI chatbot integrating multiple LLMs for dynamic, context-aware conversations; implementing AI capabilities across platform features to enhance automation and UX. - Building and optimizing data pipeline and flow systems using AI for efficient processing, and developing intelligent alert systems that deliver real-time, context-sensitive notifications.	
Junior Python Developer Intern <i>Yuva Intern</i>	May 2026 – June 2026 Remote
- Developing backend service modules in Python with REST API architecture, JWT/OAuth authentication, and database integration using MongoDB and PostgreSQL. - Improving code quality through clean code principles, reusable utility design, input validation layers, and structured peer code reviews across collaborative team sprints.	
Web Development Intern <i>CodSoft</i>	Apr 2026 – May 2026 Remote
- Engineered mobile-first responsive web interfaces using HTML5, CSS3, and JavaScript with Flexbox/Grid layouts, ensuring cross-browser compatibility and optimized UI performance. - Managed source code with Git and GitHub, handling branching, merge conflict resolution, and maintaining a clean, well-documented commit history.	

PROJECTS

GovCareAI — AI-Powered Complaint Prioritization System <i>Node.js, Express.js, MongoDB, JWT</i>	Live
AI-powered government complaint platform with NLP-based urgency detection, role-based JWT auth, and end-to-end complaint lifecycle tracking to automate public grievance resolution at scale.	
QuizFlow — SaaS Quiz Creative Platform <i>React.js, TypeScript, Tailwind CSS</i>	Live
Full-featured SaaS quiz platform with MCQ gameplay, real-time score tracking, and category filtering; built with scalable TypeScript interfaces and reusable component architecture.	
Developer Portfolio — Interactive Portfolio Website <i>Next.js, TypeScript, Tailwind CSS, Framer Motion</i>	Live
Production-grade portfolio with smooth Framer Motion animations, Next.js SSG for SEO, optimized Lighthouse scores, and a reusable component-driven architecture.	

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, HTML5, CSS3
Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Responsive Design, UI/UX
Backend: Node.js, Express.js, Django, Flask, REST APIs, JWT Auth, OTP Auth
AI & Integrations: Multi-Model LLM Integration, AI Chatbot Development, OpenAI API, Data Pipelines, AI-Powered Alerts, Prompt Engineering, Oracle Generative AI
Tools: Git, GitHub, MongoDB, MySQL, Supabase, Vercel, Render, Postman, VS Code
Achievements: Oracle Generative AI Certified | 3 Internships | 3 Deployed Projects
